Procedure Regarding Soliciting or Petitioning on Library Property

The Library’s Code of Conduct states that the Board of Trustees prohibits the following activities within the Library or on Library property: soliciting, campaigning, or petitioning.

Library property includes the entire library building and the brick plaza in front of the building.

The sidewalk in front of the library garden and the parking lot are not considered Library Property and therefore soliciting or petitioning is allowed in those places.

If necessary, the Director, Assistant Director or Librarian in charge will ask the person to move off of Library property onto the sidewalk or parking lot.
